Città di Ivrea

Regione Piemonte - Città Metropolitana di Torino

ivrea INDUSTRIAL CITY OF THE 20TH CENTURY

Ivrea, Città Industriale del XX Secolo

Ivrea, Industrial City of the 20th Century

Sviluppo della Società Olivetti in Ivrea, 1908 - 2004

Development of the firm Olivetti in Ivrea, 1908 - 2004

The map shows the extent of works on the urban structure of Ivrea, determined by the presence of the Olivetti firm, and remaining in the contemporary city.

It is about buildings for the production, for production services or related to the social services policies promoted by the Olivetti firm in the city of Ivrea since its foundation in 1908 until its divestment from the financial market in 2004. Within the perimeter of the nominated property that travels along Jervis street it is concentrated the highest number of significant buildings related to the development of the industrial city.

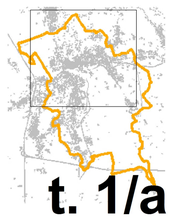

Testimonials of the urban layout as pictured after the PRG of 1938 are included, as well as the policies and strategies related to the community-based life and social approach of the factory.

The urban complex contained in the Nominated Property represents, at the highest level, the industrial city.

The sources of the map are the Catalogue of building and decorative typological assets of the city of Ivrea 2015 (numbers reported on the buildings refer to the files of this catalogue, cfr. Annex 5.d.O), the papers of the Olivetti Historical Archive and the Historical Archive of the City of Ivrea.
