

Provvedimenti di tutela e conservazione del patrimonio edilizio a scala nazionale in Nominated Property

National provisions for protecting and preserving the listed buildings in the Nominated Property

National provisions relate to the building and their direct surroundings. These are unmodifiable overtime and guarantee a perennial control by the office of the Superintendence for Archeology, Fine Arts and Landscape. All rehabilitation, restructuring and retrofit projects need to be approved by such office. This ensures a preservation of the buildings' historical, architectural peculiarities over time.
